London, 13th—The *Times*, referring to the Budget, in a long article, says that the Opposition is unjust in its attacks, and that only Gladstonians, with Dissolution on the brain, could, in face of a surplus of £2,224,000 suppose that the absence of great promises in the Budget was a cloak for dark plans.

THE NORTH BREAKWATER.

LOSS OF $3,600,000.

One by one the doleful tales of fraud or folly of the past three years are coming before the public view. The following report by the auditors, Quesada, Terry and Saenz, needs no comment: the eloquence of figures could no further go.

B. Ayres, April 10th, 1892.

May it please Your Excellency.

This scheme of the Malecon or Northern Breakwater was on a vast scale, the ends in view being as follows:—

1. To reclaim from the River Plate an area of 5,150,000 sq. metres, say 1,300 English acres or 300 Argentine "cuadras".

2. To construct avenues, squares, gardens and 230 blocks of houses.

3. To make a port with docks and piers at the mouth of Maldonado stream, close to Palermo Park.

A concession to the above effect was granted on March 14th 1889 to Messrs. Portalis, Carbonnier and Co. under the title of the Northern Breakwater and Port. That firm stipulated an outlay on their part of $25,600,000 (equal at the then rate of exchange to £3,200,000 sterling.) They engaged, moreover, to pay the Government at the rate of 3$ per sq. metre, or £1,500 sterling per acre for the reclaimed land, except whatever the Goverment should see fit to reserve for churches, schools, museums, parks and other public uses. The works were to be commenced by November 1889 and concluded by November 1894.

As soon as Portalis and Co. got the concession they proceeded to form a company with a capital of 8,000,000$, say £1,000,000 sterling, to which they sold their concession for a sum of 3,600,000$ or £450,000 sterling; but reserving to themselves, moreover, 435,000 sq metres, say 110 acres of the land to be reclaimed from the river.

Thus independently of the land reserved Messrs. Portalis & Co. got 45 per cent of the Company's capital for their own benefit, before a stroke of work was done in so colossal an enterprise.

This was a monstrous arrangement, yet such was the infatuation of the public that the whole capital was at once subscribed for, in 80,000 shares of $100 each. This included 20,000 allotted as fully paid-up to Messrs. Portalis, and the sums received down to the end of December 1890 from the public amounted to 2,300,000$, the unpaid calls amounting to 3,700,000$.

Meantime Messrs. Portalis received the stipulated price for the concession, that is 2,000,000$ in fully paid-up shares and 1,600,000$ in cash. As to the remaining 700,000$ received from the shareholders part was lodged in the English Bank of the River Plate, part lent out on bills to individuals.

Furniture was bought for the offices, plans were drawn by artists, salaries were paid to clerks, summing up 105,000$. Then the Rosario Railway Co. came forward and bought, in 1890, an area of 31,150 square metres at 30$ per metre, for which they paid the sum of 935,000$. Out of this the Co. paid to the Government 375,000$, leaving a net profit of 560,000$.

The works constructed by the company (as part of the scheme of $25,000,000) were trifling, the total outlay down to the end of December 1890 shewing as follows: —

	$
1. Embankment of 300 metres, comprising 12,000 cubic metres.....	12,070
2 Pier of 1100 metres.....	211,050
3. Sheds for materials.....	210,000
4. Sundries.....	598,580
Total.....	1,031,700

In 1891 the company built 100 metres of breakwater, after which the works were suspended, the Board of Directors issuing the following notice:—

"We have suspended the works owing to the difficulty of finding funds, as it would be disastrous to sell reclaimable lands at present".

Thus the conclusion of the business is that the public lost $2,300,000, and Messrs. Portalis pocketed $1,600,000 in cash.

Sixto Quesada, José Terry, Justo Saenz.

PASTORAL INDUSTRY IN SANTA FE.

The Rosario papers have been publishing some droll statistics about the pastoral wealth of Santa Fé. They estimate the wool clip at 4,600 tons, and deduce from it that the number of sheep is 10,000,000. Assuming the wool estimate to be correct, we find that the number of sheep cannot exceed 2,300,000, as the average fleece in late years has been 4½ lbs. weight. In other words, 500 sheep yield one ton of wool. The official returns for 1887 were as follow:—

Cattle.....	2,300,000
Sheep.....	2,900,000
Horses.....	530,009

We should regret that people either here or in Europe should imagine that Santa Fé sheep were so scabby and poor as to yield only 1 lb. of wool each, which is the average that would correspond to them if 10,000,000 sheep produced, as the Rosario papers assert, only 4,600 tons of wool.

OUR LONDON LETTER.

(From our own Correspondent.)

Feb. 29th.

Only the perennial pleasure of writing to you at all times, and the fact that it is Leap Year, induce me to write by a 6 o'clock post on a Monday. This Monday the news is staler than usual. The riots in Berlin and Vienna have calmed down and all we know is what most people thought, that they have had no political significance beyond a passing reminder that the great continental cities, like London, are teeming with poverty and its attendant crime. The military and civil authorities in Berlin have acted with discretion, and the Emperor and the Imperial family showed their pluck in facing the mob; but there the mob is, in all its brutality; and with hundreds of thousands of men out of work in Germany and with protected tariffs and gigantic military expenditure to increase the prices of the necesaries of life, the mob is likely to remain as a skeleton at the imperial banquet. What it inspires depends upon the wisdom of legislators and the state of the Emperor's mind.

In Paris they are not much better off. As M. Blowitz this morning exposes the process of Cabinet-making, it would seem that the particular vice of Republics—the presidential election always in view—has in the present instance magnified the dangers of intrigue. M. de Freycinet is a supposed candidate for the presidency, and so was M. Constans. The latter has been dexterously got rid of, but with that exception the new Cabinet is little more than a shuffle of the old pack.

***

In home events there is nothing to tell you about more than emphasize the fact that the London County Council elections are more important than the parliamentary, and that the clergy of several denominations made active use of their pulpits yesterday to recommend candidates—Progressist candidates—to the notice of their congregations. Amongst the Ministers of the Gospel who thus distinguished themselves are the Revds. Stopford Brooke, Horton and Price-Hughes. The "quality"—including of course Mr Lidderdale and perhaps the Baring family in force—who listened to Sir Henry James at St. James' Hall ridiculing amongst other things, the idea of the County Council managing the London water works, will be aghast to-day at seeing the report of a case at the Lambeth police court, in which a gentleman sued the Water Works Company for non-supply, the supply being stopped because he refused to pay a six weeks' arrears of rates left by a former tenant. The law is so strong on the side of property and water works the magistrate was obliged to dismiss the case; but he did so with outspoken regret. It transpired that the law gives the companies the right of fining anyone £5 who gives a glass of water to a thirsty tenant whose supply is cut off!

***

The *Statist* has rubbed up its famous formula x = xports/3 which seems to have succeeded in the case of Portugal, and has applied it to the financial condition of Greece. It was first used in an article written at the end of 1890, and headed "What Argentine can pay?" Your contemporary prides himself on having prophesied more than a year ago that Portugal could only pay 60 per cent of her engagements and lo! a few weeks ago the Portuguese Minister of Finance offered 50 per cent. In regard to Greece, the *x* being what can she pay? and the known quantities being 100,516,000 drachmas representing her average exports, the solution is that she cannot pay more than 33 millions whereas her debt is 36 millions certain and something more taking into account a depreciating currency and an increased expenditure. If we are to judge from the tone of the *Statist's* correspondence from Italy this country will be the next to be taken in hand after Greece. But surely it is Spain's turn first. The formula is founded on the fact that in the five years following the end of the great civil war, the United States paid on the service of their debt one third the value of their exports. All nations have not the energy of the United States, and it would perhaps be wise in some cases to increase the divisor by a few decimal points—say 3.99.

***

In 1891 the imports of raw wool into Europe were, according to Messrs. Schwartz & Co's annual circular quoted by the *Statist*, 2,880,000 bales, showing an increase compared with 1890 of 330,000 bales, of which 205,000 come from Australasia, 37,000 from the Cape, 64,000 from the River Plate and 24,000 from other countries. The excess is 15 per cent. Meanwhile the McKinley tariff has had a dire effect upon the exports of woollen goods. Port Philip "good average grease" has fallen to 8d. per pound. In November 1889 the same quality was sold at 13d. As far as Argentine growers are concerned they may find some consolation in possible changes in the American tariff in respect to raw wools. The annual circular quoted refers to the competition between manufacturers who have in Germany in particular invested large sums in machinery which has to be employed somehow, and were it not for that circumstance the price of wool would be lower than it is.

There is nothing to say worth saying about Argentine stocks. You will know that they have lately been a little firmer, as we know that the premium on gold in Buenos Ayres has been quoted at 238, although later quotations vary between 254 and 248. Our financial houses do their best for you, but nothing is of any use until we know the result of the Argentine elections. I see you go in for General Rosas! I cannot agree with you. Much of the present moral and political disorganization in the Argentine is due to 20 years of arrested development under the Mashorca.

LATEST FROM CHILE.

Our dates from Chile are up to March 30th. We extract as follows from the *Chiltan Times.*

Valparaiso, March, 30th.

A few days ago fourteen ox carts belonging to different farms were returning from Santiago to estates round about Colina, and for mutual safety the drivers and mayordomos were travelling together. At a lonely part of the road a gang of twelve mounted highwaymen swept down on the carts, firing revolvers as they came along. The mayordomos, four in number, had revolvers and they replied to the fire of the bandits, and the drivers armed with their goads drew up together to assist in defence of the carts. One of the drivers sent his goad clean through the breast of a highwayman, but the latter before falling from his horse shot the former dead. A fierce fight ensued, the result being that two cartmen were shot dead and seven were wounded, while the highwaymen had two killed and three wounded, and the latter fled from the field. The cartmen now surrounded the remaining seven bandits and they captured and secured the whole of them and handed them over to the authorities.

It is estimated that during last week 15,000 head of cattle entered Chile from the Argentine Republic. The animals are being rushed over in anticipation of the closing of the Andine passes.

The Chilian Consul in Mendoza has been authorized to expend 2,500 dollars in the repatriation of necessitous Chilians.

Forty cases of dynamite have been stolen from the Transandine Railway stores at San Pablo. The police have obtained a clue to the thieves.

Small-pox has reappeared in Angol, and cases of a malignant type are reported.

Last year's vintage is estimated at one million and a half of hectolitres.

A few days ago a newly born infant was discovered in a basket under the seat of a third class car on the Southern railway.

According to documents recently published by the *Heraldo* a sum of £50,000 remains to be accounted for in the purchase of the Aquila. In a negotiation of the kind, effected, as it was, under extraordinary circumstances, it would not be strange if thumping commissions were judiciously distributed.

The Government has purchased from Don Gabriel Varela for 200 dollars a map of Chile made in 1668, in Madrid, by Ambrose O'Higgins, who subsequently became Captain-General of Chile and Viceroy of Peru. A work of this kind is dirt cheap at the price.

Don Nestor del Rio has been appointed attaché of the Chilian Legation in Berlin.

A few weeks ago a woman residing in Lima swallowed a fork. She was operated on successfully by an Italian doctor, named Azzali, and at the date of latest advices she was doing well. The paper from which we take this information says that an incision of 31 centimetres, corresponding to the length of the fork, was made.

All the Nitrate Works are getting ready to resume operations, and this is giving a spurt to business both here and in Iquique.

The weather continues fine, and although the mornings and evenings are fresh, the days are quite summery, and very pleasant.

A charge of dynamite has been applied to the wreck of the "John Elder" to facilitate the extraction of the metals and ores.

Large quantities of wheat and other country produce continue to arrive daily at Constitucion for shipment to Valparaiso, and other northern ports.

A smart shock occurred here yesterday a little before 1 p.m., and two or three slight shocks were felt during the afternoon and evening.

A telegram has been received announcing the occurrence of a severe shock at Arica, at 2.10 p.m. yesterday. Some walls were thrown down, and the inhabitants, fearing an irruption of the sea, which was much agitated, fled in terror to the hills.

The new church of Santiago dedicated to the Saviour and belonging to the Fathers of the Sacred Heart was consecrated on Thursday with great pomp.

The judicial investigation into the cause of the sailor Carlson of the American bark, "Edward Kidder," has terminated without any clue having been obtained to the murderers of the unfortunate man. The record has been closed, and has been forwarded to the Supreme Court for revision of the sentence.

From advices received as to the shipments to the end of January, and stocks at ports of discharge in Europe, the Permanent Nitrate Committee calculates that if the consumption of nitrate of soda in the present season be only equal to that of last season the stocks available at 31st May will be 4,000 tons, as against 16,000 tons at the corresponding period of 1891.

Among the deaths registered in February in Callao appear the following—James George Whitehead, native of England, 47 years; Thomas Jackes, do., 45 do.

We regret to announce the death, in England, of Mr. Thomas Bland Garland, a well known former resident of Valparaiso. Mr. Garland was first of all connected with the firm, now extinct, of Meyers, Bland & Co., and was afterwards a partner of Don Matias Causiño, and under the firm of Causiño and Garland did at one period a large trade in flour with Australia. The development of the Lota coal fields was largely due to Mr. Garland's enterprising spirit. After the dissolution of the firm Cousiño and Garland, Mr. Garland constructed the Coquimbo to Ovalle railway, the San Fernando to Curicó section of the Southern line and the Valparaiso tramway. It is worthy of note here that this is the only instance of a section of State Railway which was executed, delivered and received without a lawsuit. Mr. Garland was a thorough sportsman, and his stables and kennels at Las Zaras were on a scale until then unknown in Chile. He was in every respect a representative Englishman, and was for many years a leading member of the British community in Valparaiso. He was an open hearted, kind and benevolent gentleman, and the news of his death will be read with sorrow by the numerous residents of all nationalities by whom he will still be remembered.

PROVINCIAL NEWS.

Revolution in Corrientes! This is the latest item of news from the provinces. The movement appears to be headed by a man called Blanco. The revolutionists style themselves montoneros. Mr. Blanco is not a black man or a gaucho. He is a mild-mannered gentleman, as Byron said of a certain character. He is an educated man. He is even distinguished for his politeness and good manners, in fact, just the man to make his mark in times of peace, and not on the tented field where mild-mannered men and even literary men, like Horace and Demosthenes for instance, have always cut a sorry figure. For the last fortnight the Correntinos have been living in hourly expectation of a revolutionary movement. They have it now in the shape of an invasion of montoneros. Some people maintain that the wires were first pulled in this good city of B. Ayres. This is very much to be doubted. Our readers may remember that about a month ago the telegraph wires were cut in Corrientes. The province had no telegraphic communication during ten days with the outer world. The people of Corrientes were stepped in anxiety and rumours flew about that some "caudillo" was preparing to overthrow the local Government. This Corrientes movement and the simultaneous appearance of montoneros in other provinces are significant. It looks like a well-planned plot. There are no details to hand so far, with the exception of a telegram to the Postmaster-General, which runs as follows:—

Concordia, April 12th
11½ p.m.

Advices just received from Santo Tome state that there was a fight yesterday between Government forces and Blanco's men to the number of 200. It is said that many were killed and wounded on both sides. Blanco is reported to have been wounded. Com Payba, of the Government forces, is likewise reported wounded. Everything reported quiet in Mercedes and Bella-Vista.

Our Santa Fe exchanges report that a quantity of firearms was discovered the other day in an estancia-house. The police are very much alarmed and are making out the usual "sumario." It is rumored that the firearms in question were destined for vigilance committees, which are now being organized in many settlements.

A Rosario paper announces a by no means surprising circumstance: a well-known assassin and burglar is to be seen every day taking his constitutional in the suburbs. This unpunished, unmolested and unmitigated rascal is known to have broken into an estancia-house recently and murdered the inmates. As there is a lull in Santa Fe politics, the local police might easily find time to arrest this criminal.

There is a Municipal crisis in Bahia Blanca. The Corporators won't sit. So the Intendente has summoned the police to collar the ediles and drag them to the Town Hall. We all know that one man may lead a horse or any number of the equine family to the brink, but it is difficult to make him drink, and we suppose it is the same thing with the Concejales. They may be dragged to the Town Hall, but they won't discuss. Pure "cussedness."

The Tucuman montoneros have begun business in earnest. On Sunday last they attacked the Sauce Yaco Estancia, Department of Graneros, wounded the mayordomo, and then proceeded to sack the establishment. The montoneros were five in number. They found close upon one thousand dollars in notes and silver in the house. The mayordomo's wife saw the villains at work. She says she could identify two of them. The same band attacked several police-stations last Tuesday night. The police attacked the fellows subsequently and dispersed them.

The girl who marries a title very frequently turns her fortune to a Count. So says the *Washington Star*, and it ought to know.

BARON HIRSCH'S COLONIES.

Colonia Palacios, 11th April.

We, in this part of the Provincia de los Crimenes, are at present very quiet. Murders have not been heard of for the last four weeks, but robberies we have weekly. We do not interfere in politics, as our neighbours are descendants of three children of Noah.

What we care for is the progress of the colony, which, to our greatest regret, is not satisfactory. It is said that many children of Shem are preparing to return to the dominions of Alexander III. At present everyone is busy; some selling the wheat which the locust has forgotten to eat, others with ploughing and building; the Italians preparing for Easter, and the descendants of Abraham Isaac-Jacob continue to complain that they suffer and how long will they live in rotten tents like the wandering tribes. A new broom is wanted to make a clean sweep.

The new Manager, Mr. Norman Smith, seems to take great interest in their position, but is surrounded by a very bad lot of employees who are hated by the colonists, and, as he does not speak the languages (Russian and German), he cannot understand their complaints. Again the new medical man, De Blitz, is very busy, having more than 40 patients, some with typhus.

The Jewish Colonization Association knows that, when any honest, well-intentioned man was by mistake appointed, as in the case of Mr. Ch. E. Cullen, he was soon removed by intrigues at the moment when he began to execute the noble scheme of the Philanthropist; but although his enemies have done their best to deprive him of the confidence gained by good words and encouragement of the colonists, his name is always, and for ever, blessed by thousands of souls. He is the second non-Jew who is so much honoured and esteemed by Jews, and gained the name of father (the first being the late Lawrence Oliphant in Palestine). Their confidence in him goes so far that everywhere young and old say: "Where the father is going, we go too" - and they hope that he'll pay them a visit.

A Jew told me not long ago that a legend in the Talmud says that there will be two Messiahs to redeem the children of Israel from the Gentiles. One will be named Messiah ben Joseph and the second ben David; but, as they are at present persecuted and oppressed by Jews, there must be a third one, and the third one is nobody else but Lieut.-Colonel Goldsmid. All look forward for his safe arrival to ameliorate their position their delegates are awaiting him in Buenos Ayres to state to him their suffering and the great mismanagement which exists. But I hear from the employeés that the delegates will not be received by him, such being his instructions from Baron Hirsch.

McKINLEYISM.

How imports and exports are paraded and balances in trade deployed, until all is a confused and inextricable tangle in the endeavor to prove that a high protective, or other high tariff, is a public boon, your contributor W. V. B. plainly shows. The thinking leading minds of the world, the men who give color to the things which compel concerted action, have long since ceased to consider the balance of trade, or that excess of imports over exports usually so-called as a matter much to be feared by men in their senses. Open a set of books with all the countries of the world; strike a balance at the end of the year—which of the countries will be the most prosperous? Those which have received the most—or those which have exported, given away, the most?

Only those who are deeply regardful of their own investments in mills and factories, and their dupes, can possibly declaim against free trade. In the States the vote of the farmer is secured for a high tariff because he is told that manufacturers united under the banner of protection give him a market at his door. Who gainsays this self-evident proposition? They don't advise him, however, that while he pays the cost of making his tools and machinery, and a reasonable profit for the worker—as farmers in other lands do—he, the free-born American, also pays one hundred per cent more for all he buys! And when he is ready to sell his cereals, the manufacturer pays him—not the price which he has been led to believe he would get, because of the market near his door—but a price made for his grain in Liverpool—out in the free markets of the world—and not one cent more will they give him. All New England is crowded with factories and mills. These markets near his door have literally driven the farmer to "other fields and pastures new," and the grain producing acres of former days are selling for what the fences cost. These are the naked facts of protection as it works on the farmer class in the United States.

We know all this in the province of Santa Fe. Liverpool buyers of cereals are at our door. Messrs. Martin, Hope, Jarvis, Davies, have all their offers for wheat in the telegrams received by them from Liverpool before they go into the Bolsa. While we must pay for our clothing, tobacco, and other things, a highly protected price, we at least get our implements from abroad with the payment of a nominal duty—but no attempt is made to hoodwink us. We know the price is not made by the buyer who makes our clothing etc. at our doors, but by the buyer from abroad.

Any other view of a tariff—unless for revenue—an objectionable way of raising revenue, at best—is a delusion.

Yours,
J. H. Bragg.

Rosario, April 10th 1892.

BUENOS AYRES CHORAL UNION.

The Annual General Meeting of this Society was held on Monday last in the salon "La France," Mr. Nicholson presiding. The President in opening the meeting referred to the flourishing state of the society, and added that he considered the third year of any society's existence the most trying, and seeing that the Choral Union had so successfully weathered that critical stage, he anticipated a long life for the society, increasing in usefulness every year.

The committee's report was next read; it embodied to an extent the President's remarks, and in addition referred to the financial condition of the society. It observed that the concerts given during last season were self-supporting, that is, the receipts covered all the expenses connected with them, nothwithstanding the heavy expenses incurred for an orchestra on two occasions. The society has a very respectable balance in hand which it hopes to steadily increase.

The new committee consists of Messrs Boyd, Begg, Mayne, Colquhoun, Grassick, Mackern and Pillner; with Mr. Nicholson as President and Mr. R. Moore as Vice-president.

In reply to a member, the President and the Conductor, (Mr. Owen,) stated that the society intend giving a concert as early as possible of miscellaneous pieces; to be followed by Cowen's Cantata "The Rose Maiden." The latter said that the society must be content to give that class of concerts for the present, as the choir was not strong enough to give heavier works. As expressed by the President, the society needs active members to strengthen the choir, and Passive Members to strengthen the finances, for by no other road can the highest results be obtained. Amongst the English speaking community of B. Ayres there is sufficient of each element, and we trust that Mr Nicholson's "hope," that each member would at least introduce one new member, may be realized.

MISCELLANEOUS.

A well-known Bradford brewer, Mr Waller, the other day handed to Mr A Boyle, whose efforts have resulted in the bringing back from Brazil of a number of destitute Bradford emigrants, a cheque for £500. As far as he knows about 150 emigrants from Bradford are still in Brazil, and efforts are to be made without delay to have them brought home again.

The Acorn has been placed in the steam basin at Sheerness Dockyard to be fitted out for the relief of the Magpie, 6, composite gunboat, which is to return home from the South-East Coast of America Station upon the completion of her first term of active service.

The Board of Trade have just awarded a binocular glass to Captain Cobden Evans, master of the barque Forfarshire, of Glasgow, in recognition of his humanity and kindness to the crew of the barque Mountain Laurel, of Liverpool, whom he rescued, during a heavy gale, in Valparaiso Bay, on July 5, 1891. The Board have also made the following awards to those who manned the rescuing boat—namely, silver medals for gallantry in saving life at sea to Frank William Macdonald, mate, Duncan M'Diarmid, second mate, Thomas Wilkie, extra second mate; and bronze medals for gallantry in saving life at sea, and a sum of £2 each to George Tocher and John Nick, seamen.

Letters have been received at the Admiralty from the senior officer on the Southern-East Coast of America, dated up to February 4. The Cleopatra, at Montevideo, was to leave as soon as stores were received, for the Falkland Islands and Patagonian coast, returning to River Plate about April 11. The Basilisk is to leave Montevideo about March 22 to meet the Cleopatra on the Patagonian coast, returning to River Plate by April 18.

The Sunbeam, with Lord Brassey's pleasure party on board, reached Jamaica on March 3. All is reported well on board, and the party, which includes the Duke snd Duchess of St. Albans, Admiral Sir W. Houston-Stewart, Lady Dorothea Stewart-Murray, the Hon. Spencer Lyttelton, and Major Seymour Finch, are now enjoying themselves at the Kingston Government House, where they are the guests of Sir Henry and Lady Blake.

According to a Montevideo journal the effect of immigration and intermarriage upon the Uruguayan people will soon be somewhat startling. By the middle of next century a great change will have taken place in the "manners and customs" of the Uruguayans, according to this authority. This speculaitve theory tempts one to say that as regards finance there would seem to be room for considerable improvement in Uruguayan "customs" at all events.

In consequence of the lamented death of Mr. Hankey, M.P., who was, among other things, chairman of the Midland of Uruguay Railway, a special meeting of that concern has been called for March 11, to elect a director in his place.

Mrs. Ginty, widow of Mr. Gilbert Ginty, C.E., of Rio de Janeiro, died at W. Ilsley, Cheshire, on Feb. 29th, aged 64.

A daughter of the late Mr. Richard Latham, of Bahia, died at Broughton-in-Furness, on March 2, aged 69.

Miss Isabella Bell, a daughter of the late Mr. James Bell, of Buenos Ayres, was married at Liverpool on February 26th, to Mr. Frederick Hawkins, of that city.

Mrs. Elcoate, widow of the late John Brown, of Fleet Street, London, and eldest daughter of the late Mr. John Brown, of Buenos Ayres, died in London on February 26th, at the advanced aged of 87.

EDITOR'S TABLE.

Friends, readers, countrymen and lovers, we bid you the kindest of "au revoirs" till Easter Sunday morning, when you shall have your STANDARD at breakfast as usual.

The trains and steamers were crowded yesterday evening, and there will be a still greater rush for the former this morning by thousands of excursionists.

The leader of the row in Matto Grosso—beg pardon, in the Transatlantic Republic—is the famous Colonel Barboso, of Rio Grande, who has named a Government, of which he is "boss" Most of the troops and gunboats there have declared for him; and he has in notes, silver and gold £20,000, and a supply of salt and gunpowder for three years. He has seized two steamers of the Brazilian Lloyds, and all that Company's stores. He intends to send Ambassadors to this country, Paraguay and Uruguay, asking for recognition. The respectable people of the place are against the Colonel, who is more than likely to return to private life before long.

The Belgrano Polo Club will play a match against Hurlingham on their ground at Calle Saavedra, Belgrano, this afternoon, the game commencing at 2.30 o'clock. The members of the club will do their best to entertain any of their friends who may come to witness the game, which should be a good one, judging from the teams, which are as follows:—Belgrano: H. de B. Stafford, J. H. Hunter, E. Robson, F. J. Balfour. Hurlingham: D. Wilson, F. Furber, R. England, H. S. Robson.

We had the pleasure yesterday of visiting Professor Homberger's studio for portrait painting. His pastel portraits are beautiful, and that in crayon of the Rev. Mr. Spilsbury cannot but claim great admiration. Anyone who has ten minutes to spare ought to pay Professor Homberger a visit.

The Caja de Conversion yesterday subscribed 518 shares of the Banco de la Nacion.

The state of siege, according to a decree signed last evening, is to be suspended in Santa Fé next Sunday on the occasion of the elections for the renewal of the Chambers.

A decree was issued yesterday opening Dock No. 3, and the warehouses built on the south wharf of Dock No. 1. The same decree orders the street connecting the Dock No. 3 with Calle Rivadavia to be paved.

The Argentine Committee for the Chicago Exhibition has opened its offices in Calle Peru 260. The offices are to be open from midday till 5 p.m. The Committee intends to make a preliminary exhibition here of all the articles to be forwarded by Argentina to the World's Fair.

The Half Yearly General Meeting of the English Literary Society announced to have been held on Tuesday night last, had to be postponed, owing to the required number to form a quorum being short by one. The Meeting will now be held on Wednesday the 20th inst. when any number of members present will suffice to transact business.

A long felt want in Athletic Circles has been met by the formation of the Amateur Athletic Association of the River Plate, the rules and regulations of which are being handed round, and all Athletes should peruse them carefully. The following constitute the office bearers: Chairman, E. Christian; Hon. Sec. E. Danvers; Hon. Tres. R. Anderson; Committee J. Ravenscroft, J. Balfour, W. P. Drabble, M. G. Fortune, H. Anderson, H. Mills; suplentes V. Ker Seymer and D. Stokes.

The Anarchists in Europe won't pull up till a few dozen of them are guillotined in Paris, garotted in Madrid and hanged in Vienna and Berlin; and the never-ending yellow fever alarms here will not come to an end till the port is shut in the face of all vessels from Brazil. Another case is reported, this time in the Boca. The patient is the Captain of a Norwegian vessel that got free pratique on the 3rd inst., yet he did not fall ill till the 9th. The vessel and two others that were moored alongside her were towed to the Outer Roads. This is the first case of yellow fever that has come this season so near the population, as all the others were successfully kept at arm's length in the Roads.

In spite of Conversion, a prospective new Bank, Unification of the Home Debt, a reformed Budget, and Tom Walker knows what more, the situation in Montevideo shows no sign of improvement. The plain fact of the matter is that there are too many financial irons in the fire, and the public instinctively feel that the end will and must be a "cropper."

There are generally two sides to a bargain, but somebody unknown to fame here thinks that it is possible to strike one without the other side. The *Montevideo Times* says:—"According to a B.A. contemporary a proposition is to be made to the Montevideo Choral Society to join those of Buenos Ayres in giving an "oratorio." The idea sounds pretty, but it must be remembered that the principal work in getting up an amateur oratorio consists in drilling the choir, which generally, means two or three months' labour; and, unfortunately, telephonic invention has not yet reached such a pitch of perfection that it would be possible for these rehearsals to take place simultaneously on both sides of the mighty, muddy River Plate. Another powerful objection to the proposal is that the "Montevideo Choral Society" does not at present exist."

The state of siege in Rio did not last long—only 24 hours. It was brought about by the same cause as here, a conspiracy; but Peixoto locked up a score of hoary Generals, and then set the Constitution going again at once. This has greatly increased his popularity.

We referred yesterday to Leap Year proposals by the ladies in the "for better for worse" direction. Can any subscriber, male or female, tell us how this privilege of the fair sex began? We know not. We have "popped" on it in that invaluable paper the *Chic go Tribune*, and here it is for you, dear, dearer and dearest fair ones:—"In the year 1288 a statute was published by the Scotch Parliament, of which the following is a copy, and is the origin of the custom or idea:—"It is ordinaint that during the reign of Her Maist Blessit Majestie Margaret, like maiden, ladee of baith high and lown estate, shall be a liberty to speak to the man she likes Gif he refuses to take her to be his wyf, he shale be muiet in the sum of ane hundredity poundis or less, as his estait

Chascomus, March 23rd 1891.

Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to its EFFICACIOUS DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.

The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."

Yours very truly
(Signed)
JOHN KELLIE.

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Tuesday, April 12th.

The gold market opened weak this morning owing to the news from the wool markets and the expected supply of heavy amounts of produce gold. Twenty thousand ounces changed hands at the first ring; the price opened at 54.80, fluctuated for some time at 55, and closed hard at 55.20, say 2304 o/o premium. Three thousand sovereigns were sold; the price opened at 17.05, fell to 17, and closed at 17.10, more or less the same premium as on ounces. The sudden rally in the price of gold towards the close of the ring was a surprise to the market, as all thought that the produce gold would drive ounces down to 544; there were some croakings about politics, but no importance was attached to the idle reports of the inveterate bulls, and the rise in the market arose simply from over-speculation on the fall to-day.

Patriotic Bonds were dull and weak; they opened at 59.60 and closed at 59.50. Spanish Bank shares were firm at 86. Catalinas fell to 6.90, but rallied, closing at 7.10. National Cedulas were firm and in demand at 85 for D and 80 for C and E. La Plata Cedulas were dead-and-alive; about 25,000$ changed hands at 29.60 to 29.70 for O and 29.50 to 29.80 for P. One hundred shares of the Banco Sud Americano were sold at 39; we hear that the report of this Bank is out and affords interesting reading.

Exchange was firmer to-day at 48¼ to 48⅜d. on London. Drawers are numerous, takers not so much so. Large amounts of telegraphic transfers are reported at 48⅜ to 48 11/16d. on London. Discounts continue very difficult.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Immediately after the ring an auction was called and 40 shares of the Hipodromo Nacional of 200$ each were knocked down at 37.

Telegrams received from Antwerp to-day quote Rosario wheat at 17¾ fcs. per 100 kilos cif. at that port. When we consider that this season opened at 22 fcs., one can imagine the losses suffered. Wisecares speculated freely on a rise in wheat and freights; the market has gone against them.

A notice was posted on the black-board to-day notifying members that the doors of the Bolsa will be closed on Saturday; thus the example set by the Banks has been followed by the Camara Sindical.

Mr. Horacio E. Bozzano has been appointed manager of the branch of the Banco de la Nacion Argentina in the Esperanza colony in the province of Santa Fé. This is a most important branch, situated as it is in the heart of the wealthy agricultural districts. The Board of the Bank have been happy in the choice of a manager well-known for his most estimable qualities here in B. Ayres. The right man in the right place.

Telegrams from Rio quote exchange at 11⅜d. on London.

The following tenders for amortization of Patriotic Funds were sent to the Caja de Conversion to-day:—

Roberts Varrel.....	$3,000	at 60
Falcon y Tannaz.....	50,000	60
Leopoldo Solis.....	20,000	60.10
Juan Repetto.....	10,000	60.15
"	10,000	60.19

The arrivals in the produce markets did not amount to much this morning and business was not as active as yesterday. Consignees state that heavy arrivals may be expected from outside next week. The purchases of wool in the rural districts since last week have been very large.

The wheat market was more active this morning, owing to the news that orders had come out from Europe to increase the limits of purchase. This sounds improbable in the light of latest prices cabled from Antwerp; it may be that the wheat market has touched bottom. Some wheat was sold for export to-day at $9.20 and 9.10 per 100 kilos.

Gold was a trifle stiffer at the second hour, but such a meagre business was done that there was really no market. Ounces closed firm at 55.60 and sovereigns at 17.22. In stocks the business done was a mere bagatelle.

Freights are reported firmer in consequence of a great deal of wool offering and the approach of the maize shipping period. Very llitle wheat goes forward, but the maize shipments will, it is believed, be considerable.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

Ounces—

The *Chilian Times* of March 23rd. gives the following particulars of the loss of the British ship Crown of Italy:—

"The captain of the Chilian bark Reina Margarita, from Genoa, reports that on March 1st. when at St. John's Lighthouse, Staten Island, he sighted a boat, under sail and oar, carrying a red flag. He hove to and when the boat came alongside he found it to be the lifeboat of the island in charge of the acting subprefect, don Natalio Borghini, and manned by some of the crew of the wrecked British ship, Crown of Italy. The subprefect stated that he was short of provisions owing to the circumstance that since the 24th. of December, he had been under the necessity of providing not only for the prefectural staff but of 33 persons more, including two women, belonging to the British ship Crown of Italy which was lost on December 23rd. at Cape San Diego, Strait of Lemaire. The people on the island were subsisting, he stated, on seal flesh and gulls. To make matters worse the Argentine Government steamer Golondrina left the island for Punta Arenas, with the prefect on board, on the 24th. of December, a few hours before the arrival of the shipwrecked crew, and as nothing had been heard of her since, it was feared that she was lost.

"The captain of the Reina Margarita supplied the famishing people with four barrels of biscuits of 45 kilos each, a bag of flour of 50 kilos, 6 tins of preserved meat of 3 kilos each, 8 codfish of 6 kilos each, and 8 kilos of sugar, which was all the provisions he could spare. He also received on board three of the shipwrecked crew viz: Henry Kaskill, American, James McEwer, English and Joseph Hadge, French.

"The captain of the Reina Margarita also brought a letter to H. B. M. consul-general, Lewis Joel, Esq. from Captain Greenbank of the Crown of Italy, three letters for Europe from some of the shipwrecked people and a communication from the acting prefect at St. John's for from the Argentine Consul.

"H. B. M. consul-general has officially thanked the captain of the Reina Margarita for his disinterested and generous services, and has offered to reimburse him for his expense of bringing the three shipwrecked men to this port."

"During the past month rates for grain have declined considerably in consequence of the unfavourable news from Europe. The last charters have been effected at 22s. for sailers and 23s. to 25s. for steamers, and even at such low rates the demand for tonnage is very limited. However, rates will soon improve again, as there is plenty of wheat and linseed to be shipped, and the maize crop promises to be pretty fair and ready for shipment about the beginning of May.

"The demand for vessels to carry hay to Brazil continues, but rates of freight show a decided downward tendency, but it must also be taken into consideration that during the last month they were unusually high."
